## DETAILED ACTION

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest, *inter alia*, a method for determining a mechanical axis of a femur using a computer aided surgery system having an output device for displaying said mechanical axis, the method comprising: providing a position sensing system having a tracking device capable of registering instantaneous position readings and attaching said tracking device to said femur; locating a center of rotation of a femoral head of said femur by moving a proximal end of said femur to a first static position, acquiring a fixed reading of said first static position, repeating said moving and said acquiring for a plurality of static positions; and locating said centre by determining a central point of a pattern formed by said plurality of static positions; digitizing an entrance point of said mechanical axis at a substantially central position of said proximal end of said femur; joining a line between said entrance point and said center of rotation to form said mechanical axis; and displaying said mechanical axis on an output device without reference to an image of said femur acquired pre-operatively or intra-operatively using a medical imaging device.

Concerning the section 103(a) rejection using Carson et al., Dance et al. and Leitner, the examiner agrees with applicant in that neither reference provides any teaching of "displaying the mechanical axis on an output device without reference to an image of the femur acquired pre-operatively or intra-operatively using a medical imaging device". Based on the above observations, claims 1-4, 7-23 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOHN F. RAMIREZ whose telephone number is (571)272-8685. The examiner can normally be reached on (Mon-Fri) 7:00 - 3:30 p.m.
